Nashville, TN 37203

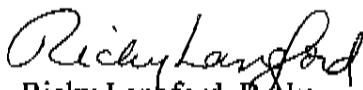

Dear Hugh,

I want to take this opportunity to extend my appreciation for your excellent performance in providing consulting for, and design and implementation of the very technical, complex systems we used at Northwestern Memorial Hospital in Chicago. You were able to provide the latest in technology without putting us in a risky situation for operations, and you did it within a very tight timeline. Your services were invaluable to me as the Project Director for this multimillion dollar high rise medical center.

Now that I am working at the other end of the country, I want you to know that I recommend you to designers and project Owners wherever they may be, to provide your level of expertise and practicality in a field that has untested methods and protocol for the occasional user.

I am happy to hear that your business has prospered, and the services you provide are recognized nationally. If you have any clients who need a testimonial as to your abilities and quality of work, please feel free to refer them to me.

Sincerely,

Ricky Langford, Broker
Redmond, Oregon
